TYPE I SAFETY CANS, from **Justrite**, are an economical choice for storing flammable liquids. They have self-closing, leak proof lids that prevent ruptures from pressure build-up, plus they control vapors and spills. These cans are made from high-grade, powder-coated steel that resists chemicals. Meets OSHA and NFPA requirements and are certified by FM, TUV, UL, and ULC. Accepted under CARB regulations.

NOTE: To avoid misuse and reduce the potential for incompatible mixtures, different color cans differentiate liquids and are affixed with warning labels that have an extra-large ID zone for user labeling of contents. **Red** is used, and OSHA accepted, for gasoline. **Blue** is often used to store kerosene. **Yellow** cans usually store diesel fuel, and **Green** cans are primarily used to store oil.

BURN RELIEF

The **Water-Jel® FIRE BLANKET** offers a one-step solution to emergency first aid on burn victims. The **Blanket** completely covers a person (up to 6' tall) and is 100% worsted wool. It comes thoroughly saturated in an odor-free, crystal-clear cooling gel, which helps with the visualization and assessment of injuries. And it protects against heat and flame, puts out the fire, stops burn progression, and cools the skin.

HSAEDBAS

DEFIBRILLATORS

HeartSine's Samaritan® Pad AED was designed especially for use in public areas, providing a sophisticated defibrillator for adult or pediatric use inside a lightweight and easy-to-operate system. Its battery and electrode pads are incorporated into an "all-in-one" **Pad-Pak**, sharing a single expiry date. Designed for the minimally trained rescuer, the semi-automatic **Samaritan PAD** has both visual prompts along with voice/icon prompts for easy instruction. It comes with a **Samaritan Defibrillator**, adult **Pad-Pak**, storage/ carrying case, data port, quick instruction card, user manual, and CPR poster. A Medical Authorization Form is included with sale of each unit.

NOTE: Good Samaritan laws provide limited immunity for AED owners.
