

# MARK II SERIES CABINETS

M2M

M2WR

M2WC

Cabinets feature breakaway covers that provide easy access to extinguishers, while their polished “window” areas offer easy viewing of pressure gauges. Padlocks also allow service techs quick, easy access for monthly inspections and annual maintenance. Cabinets come complete with a brass lock, cover, and a screen-printed pictogram.

- Injection molded ABS plastic cabinets won't dent or rust
- All components are corrosion resistant
- No glass to break or sharp corners to cause injury
- Costs less than metal cabinets
- Cabinets are light and nest easily together for easy storage and transportation
