

# i2 Plus Pre-Loaded Mini Appliance

## Data Sheet

### Key Features

Ultra compact size, pre-loaded with Doors.NET Standard Edition Access Control Software

16GB DDR4 RAM and 500GB SATA-6Gb/s SSD

Enough computing power, memory and storage to run Keri's entire suite of optional features

No waiting for software to install, or dealing with initial Windows® updates and other system issues

Suitable for installations up to 256 readers and 10,000 credentials

Eliminates errors and variability found in customer-provided or off-the-shelf PCs

Turn it on, select your hardware type, then start programming immediately

Small, quiet, IT-friendly/ready package with 11th generation Intel processor

### i2 Plus Pre-loaded Appliance

**The i2 Plus Appliance** greatly simplifies installation because Keri's Doors.NET Standard Edition Software is pre-loaded and pre-licensed, ready to use immediately. The i2 Plus is an embedded mini-appliance with keyboard and mouse that has the capability to manage an access control system of up to 256 readers and 10,000 credentials. This unit has 16GB DDR4 RAM and 500GB SATA-6Gb/s SSD.

Installers will appreciate the time and hassle it saves because it virtually eliminates Windows® problems and other system issues commonly found when using a PC provided by the customer, or purchased from a retailer.

Simply choose your hardware type and start configuring the system.

The i2 Plus Appliance (in addition to Keri's Doors.NET Standard Edition Software) comes pre-loaded with:

- Doors.NET Application Server
- Microsoft \*SQL Express® Database

Selectable gateways allow the appliances to connect to any Keri controller type:

- NXT
- Mercury® Powered NXT
- PXL-500
- Entraguard
- Neutron

**Note:** \*Windows and SQL Express are registered trademarks of the Microsoft Corporation in the United States and/or other countries.
