

ML15F PA Horn Loudspeaker

The ML15F 15W PA loudspeaker is suitable for harsh environments with high ambient noise levels. With superior intelligibility and dispersion characteristics combined with an optimised frequency range, the compact ML15F is capable of generating a maximum SPL of 120dB ensuring it is ideal for all applications requiring a robust solution for voice notification.

The ML15F features IP66 & IP67 (Type 4/4X/13) enclosures manufactured from high impact, fire retardant ABS. All models have dual cable entries and large termination areas containing in & out terminals. The 316 stainless steel bracket is ratchet adjustable permitting optimum positioning. Available with 25, 70 and 100V line transformers or in 8 or 16 Ohm low impedance versions. UL & cUL approved for Fire Alarm & Emergency and Professional & Commercial use.
