

NJAFED
NEW JERSEY ASSOCIATION OF
FIRE EQUIPMENT DISTRIBUTORS

To all NJAFED Members,

Governor Murphy has come out with his stay home orders for non-essential businesses and their employees. See the attached executive orders.

In my personal opinion the fire protection industry is an **ESSENTIAL** business for the obvious reasons of emergency services such as fire alarm activations, suppression system discharges, sprinkler issues to name a few.

NJAFED has devised the attached letter for your use to have in all vehicles should the need arise. It is not a legal letter just the opinion of NJAFED in relation to essential or non-essential business.

With that said, I urge all companies to use common sense and only be out for emergency work or to service those businesses that can remain open as needed.

Use caution, social distancing, and disinfect all surfaces that you come in contact with.

We are all in this together and will get through it together.

Al Fecci - President
